Victron™ Modular Inverters (for 24V batteries)

DC to AC Sine Wave Inverters

Phoenix™ 24/1600 (1,600 VA's)

Under
Development

\$1,519*

Phoenix 24/3000 (3,000 VA's)

Inverters with Built-In Chargers

Go beyond inverting with an inverter/charger. When you supply "the Multi" with AC power, it will use some of that AC to charge your battery, & use the rest to meet your AC power demands.

Phoenix 24/1600/40 (with 40 amp charger)

Under
Development

\$2,109*

Phoenix 24/3000/70 (with 70 amp charger)

[See Stand-Alone Chargers on Separate Page](#)

Options

CA: Computer Adapter: **\$39** **SC:** Stacking Cable: **\$37**
RKP: "Radio Knob" Panel for Multi's: **\$189** + cable

LUG: We'll install 2/o compression lugs on the DC side: **\$39 net**, required for sales to end users.

UPS: Carton reinforcement: **\$19 net**, always required for shipment.

CDS: *Can Do SwitchGear™* A complete line of AC and DC switchgear, quoted per application.

(Card Code: 1000/710)

Notes

Power ratings are continuous @ 77 degrees F.
The VA (volt-ampere) is a unit of power similar to the watt.

All published prices are "Reference Retail" only. Installation and setup not included.
Actual purchase prices are individually negotiated between end users and their retail dealer.
Please respect this manufacturer: Do not reverse engineer or otherwise copy these products.

All details subject to change without notice.

Victron™ Battery Chargers (for 24V batteries)

Use these alone or with other Blue Boxes™, in new projects or for retrofit. *Invert Small and Charge Large™*

Centaur™ Three Stage Chargers

16 amp	\$385*	60 amp	\$ 969*
30 amp	\$585*	80 amp	\$1,465*
40 amp	\$789*	100 amp	\$1,705*

Additional Victron Chargers

Check www.victronenergy.com for many other Victron battery chargers, then contact us for a quote on your preferred model. Go Victron!

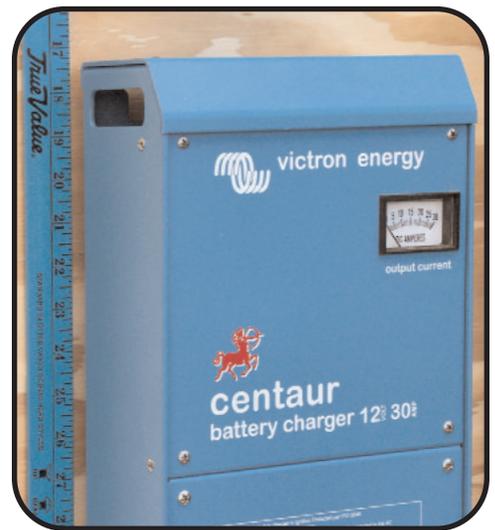

Options

UPS: Carton reinforcement: **\$19 net**, always required for shipment.

CDS: Can Do SwitchGear™ A complete line of AC and DC switchgear, quoted per application.

GenAuto: Automatic start/stop circuitry for engine generators. Automate your engine driven charging system in a smart/friendly way.

GenWarm: To allow for genset warm up, stand-alone chargers need manual or automatic time delays. Custom solutions quoted on request.

Victron gear is also available for international AC voltages.

(Card Code: 1000/710)

Notes

Charger ratings assume 240 volt AC input. For 120 volt input, charging amps are 10% lower. Ratings are continuous @ 104 degrees F. **Compare!**
